He finds little difference between the tariff views of Iowa Republicans, as expressed in the State platform, and the position of the Democrats. He says the futility of legislation, other than tariff reduction in restraint of combination, by either expressed or implied agreements and fixing the price at which their own products shall sold, is to Democrats demonstrated by the fact that the great bulk of our trusts have been openly organized in the face of anti-trust laws carefully prepared and inorated into the statutes of the nation and many States.

GROUT NOT IN FAVOR. Brooklyn Democratic Leaders Talking

Over Candidates. There was much confabbing yesterday between Hugh McLaughlin and the Assembly district leaders at Democratic headquarters in the Willoughby Street Auction Room in Brooklyn. The talk, of course, centred on the probable choice of a candidate to run against Gov. Odell, and the names specially considered were Chief Judge Parker of the Court of Appeals, Justice Peckham of the United States Supreme Court, Bird S. Coler, Edward M. Shepard and Comptroller Edward M. Grout, who within the past few days has become a factor in the fight through the action of some influential friends in Manhattan and other boroughs. Until Mr. Grout became the candidate of the fusion forces for Comptroller last year he was a special favorite with the Willoughby Street leaders, but it is thought that his part in the municipal contest will eliminate him from serious con-sideration by the regulars this year. Mr. Shevlin again declared that the Kings county organization had no special candi-date, and that the choice was "up to ex-Senator Hill."

BOARD OF EDUCATION PUTS IN OVERTIME.

Ten Ballots Needed to Elect an Associate Superintendent of Schools-Row Over an Ip-Stater Who Gets a Richmond Job Budget increase \$2,130,218.

The Board of Education sat from afternoon to midnight yesterday at its first meeting in the scholastic year. One of the first reports to provoke discussion came from the Special Schools Committee, and suggested that the night school sessions be reduced to four nights

consideration. Motions to grant a bonus of \$60 a month to teachers of mixed classes of boys and girls and making the salaries of all district superintendents \$5,000 a year after Dec. 31 went through quickly, but a request for an emergency appropriation of \$15,000 to purchase in the open market coal for the Manhattan schools brought out an amendment from Samuel B. Donnelly, the labor member of the board, demanding that Welsh anthracite be specified, "if only to show the public that the board would not be a passive victim of the hold-up being perpetrated on the country by those who control the coal market." Commissioner Ma k

The report of the Building Committee showed a prospective increase in seating capacity in the schools by reason of new buildings and additions, of 8,420 before Dec. 31 and of 32,500 for 1903. Plans and stracts to be let by Dec. 31 provide for 30,000 more sittings. Accommodations leased to relieve overcrowding supply 3,150 more. Mrs. Henry Parsons wrote inviting the board to inspect the children's farm in

Ten ballots were necessary before an issociate Superintendent of Schools was elected. Andrew W. Edson get the job-t pays \$5,500 a year and lasts for six years. His closest competitor was Clarence E. ther candidates were Martin 3. Eighs and Henry W. Jameson.
Electing a district Superintendent for Richmond took longer still. Dawson L. Bardwell of Binghamton, N. Y., had been recommended for the place by the Board of Superintendents. His candidacy was strongly opposed by Messrs, Mack and Stern and ex-Senator Guy. Mr. Stern objected to going outside the city for a man to fill the place. "Who is this Bardwell, anyway?" he asked. "I've never heard of to fill the place. "Who is this Bardwell, anyway?" he asked. "I've never heard of him. We rejected him once. When the anyway?" he asked. "I've never heard of him. We rejected him once. When the City Superintendent crys for anything the Board of Superintendents joins in timid chorus. When the City Superintendent says I want Bardwell and I've got to have him the board cries amen. I don't say amen. I say damn."

President Burlingham called Mr. Stern

"That's proper English, Mr. President." said Mr. Stern. "T've heard the City Superintendent himself say it."
Mr. Guy said that this was an effort on the part of the Republican machins at Alba...y to get an entering wedge into the New York public school system.

Bardwell was elected by a vote of 28 to 13. After an hour's recess the Board in executive session considered charges of misconduct against Mary W. Smith, a teacher in public school 59, who has been named as corespondent in a divorce suit. She was dismissed.

Justice Wilmot M. Smith of the Supreme Court, sitting in Long Island City yesterday, tried the divorce suit brought against Frank B. Wilson, a broker, by his wife Theodosia Wilson of Whitestone. Paine's Celery Compound

Cures a Lady Who Was Told That Her Life Depended Upon a Surgical

Operation.

The greatest misfortune of the present generation is that wives and mothers are so frequently unfitted for the duties of life and domestic enjoyment by reason of broken-down health and overtaxed systers. The duties of women of all ages are really more worrying and wearing than the troubles met with by men. Social, household, and often business cares press upon women very heavily. In this way the delicate nerves and sensitive organs become de-ranged, supering ensues, and life becomes a burden that many carry to the grave For the special weaknesses to which women so often fall victims, medical science has provided Paine's Celery compound. This famed medicine has specific powers for correcting the disorders of the female organism; it maintains health, gives strength, vivacity and good looks, and parts to the body the elasticity of girlhood. No other medicine can so quickly banish and permanently cure painful and

obdurate feminine iiis. Mrs. L. S. Long, of Flint, Mich., says: "For twenty-five years I have been a great sufferer from insomnia, never ob-taining more than four nights' sleep in a week. For sixteen years life has been a burden to me because of prolapsus uteri, whose tortures no words can describe, and from which no physician gave me any hopes of relief except by an operation. I have also for years been troubled with rheumatism to such an extent in my right shoulder as to nearly disable me. "Last February I was induced to try Paine's Celery Compound in hopes that reief from insomnia and rheumatism might her from insomina and rheumatism might be obtained. After using three bottles of the Compound, the rheumatism was better, I could sleep like a child, and, strangest of all, my uterine trouble was cured."
